

Black Band is kind of a singer-songwriter-group. Sometimes they build up walls of sound with long, distorted or clean chords (drones). They're influenced by bands like Low, Meat Puppets, Sebadoh, Pantaleimon, Earth, Sunno))) and songwriters like Leonard Cohen, Townes van Zandt, Nils Kopruch and Bob Dylan.

The German and English lyrics deal with animals, love and the rest - simple melodies and arrangements.

Black Band is from Berlin, performs live since 2003 and has released a couple CDs.

Singer and guitarist Chris is the only constant member and also in 100000 Tonnen Kruppstahl (grindcore, doom, noise-rock).
